PROFESSIONAL SUMMARY

Full-stack developer with 6+ years of experience building web applications, integrating business APIs, automating workflows with Python, and delivering SQL and Power BI reporting solutions.

PROFESSIONAL EXPERIENCE

Software Developer

Mar 2024 - Present

Trèfle Applications · Remote · France

- Build and maintain Vue.js and Flask applications for ticket management and sales tracking, centralizing client workflows.
- Develop Python automations and n8n workflows, integrating APIs to improve operational efficiency and production reliability.
- Integrate business APIs securely, including a Python tool for managing client files through the Autodesk BIM 360 API.
- Create SQL datasets and Power BI reports tailored to client reporting requirements.
- Maintain secure, performant WordPress websites and develop Excel VBA tools that automate internal business processes.

IT Support Technician / Software Developer

Oct 2022 - Feb 2024

Aphelion Solutions Ltd · Riche Terre, Mauritius

- Administered Linux and Windows servers, Microsoft 365 accounts, user access, and client IT equipment.
- Diagnosed hardware, software, telephone, and meeting-room issues to maintain reliable client operations.
- Integrated Mastercard Payment Gateway Services (MPGS) into a client e-commerce platform with secure transaction handling.
- Automated scheduled SQL jobs and delivered Power BI reports aligned with client requirements.

Junior Data Analyst / IT Support

Oct 2020 - Oct 2022

Professional Outsourcing Solutions Ltd · Grand Baie, Mauritius

- Developed reusable SQL Server queries and table-valued functions supporting operational reporting in SSRS.
- Automated internal business workflows with Ultimus BPM Suite to streamline recurring processes.
- Partnered with business users to translate reporting requirements and resolve technical and data-related issues.
